Obvious hackers - why doesn't Nexon do anything about them? You will be surprised

Hello everyone

What is happening to Combat Arms? Hackers are everywhere and none of them are getting banned
I could go on to type millions of characters ranting but I'll make this very short and sweet.

There are so many obvious hackers in Combat Arms with ridiculous kill streaks and they are even sitting in our current top 10 players

[Removed] is ranked in the top ten. And his/her longest kill streak is 110

[Removed] is ranked in the top ten. Longest kill streak is 72

[Removed] is ranked in the top ten. Longest kill streak is 139

[Removed] is ranked in the top ten. Longest kill streak is 55 which could be legit but come on starting the account on April 20th 2010 and a year and a half later he is a GOA with 8 700 000 exp? I don't think so

Also if you click on the tab that shows the people with the highest KDRs in Combat Arms, they are all mainly hackers but I would like you to look at this account

[Removed]
KDR of 54.63 (highest kdr on Combat Arms currently)
2710 kill streak
Enlisted on the 22nd October 2011 And his/her is now MAJ44 (As of 28th October 2011). From Trainee to MAJOR44 in 5 days? I don't think so

Why is Nexon allowing all of these people to continue playing this game?
I honestly do not understand

Please comment giving your opinion and so that Nexon will see this thread and actually do something about these people!

Thank you for reading

EDIT Why are the URLs not linked automatically?

year and a half later he is a GOA with 8 700 000 exp? I don't think so <- he has no life?

also saying it before anyone else does "if you put someones IGN up here without consent it can be considered harassment and could get YOU banned" or something along those lines

In the recent past, a leader of a top clan was caught and admitted to hacking. People defended him/her. Utter as I know of several players who, in my opinion, are closet script kiddies. Sad part of it is, they have actually convinced themselves into believing that they are legit. Tell yourself your legit often enough, and you will come to believe it yourself. Yes the hacker, spk, tyers, etc etc are a pain. Its the ones that hide it or try to watch one the other day. But I have known for some time, since complaining of lag. Hmmm lag, yes there is that, but when this person left the room all the lag went away. He resumed a few minutes later and ended with a 3.5 kdr for the game. Oh and the lag returned with him. Considering his score in game, his kdr is not what you would expect, but still far too high in a run and gun game. He seldom misses, he knows where everyone is at all times. But hey I have no definitive proof.

Nexon should also, like in another game, have played the following, when an elite kicks that person is banned from the elite servers for good. Only the elite can edit the list. They should also allow submit and misc to banning, sorry folks, yes you can get around this, but its not as easy as some would have you believe.

This game is one giant data base. Nexon, connect a couple of queries into said data base with basic questions, i.e. if (players > 100,000,000) & (howa > 100,000,000) and we all know there are a bunch of those. Take a look at the number of generals in your base. They were not there a month ago. Heck they weren't there two weeks ago. Look at the accounts, they were only created a month or less ago. Yup, great game, sure it is. Time for this to get fixed, if not, Nexon, you won't have to worry about hackers, your jobs will be on the line because the game was shut down due to lack of paying customers.

space it out more - hate walls of text

ARCHANGEL 10-28-2011 04:23 AM

pay no mind to the fool above - he must have thought this was the "what do you hate" thread. R.I.F. (reading is fundamental)

Batt2Girl 10-28-2011 04:33 AM

They'll never do anything about this

expert20 10-28-2011 06:02 AM

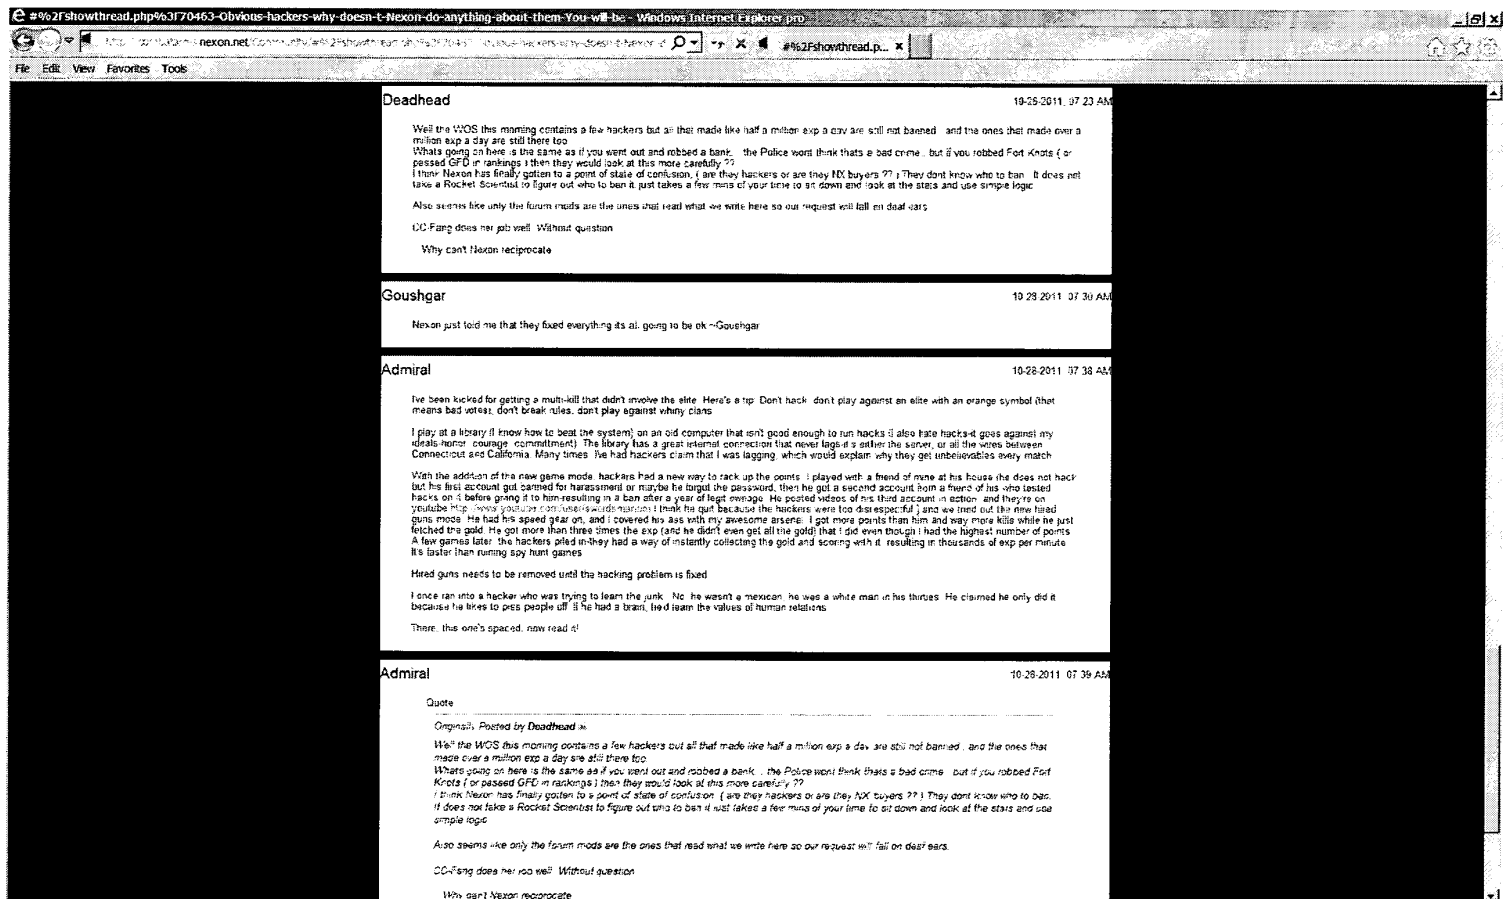

I know I legg a lot but thats because I only have 2 bans - and of course also the hackers but I have been kicked by elite mnds for "hacking" when dly we are in a knife only game and I legg so bad that I go up to there "tagged" position and knfs there head off and then I get kicked this is why I dont like Forsakenuns idga.

Goushgar 10-28-2011 07:15 AM

maybe a system that investigates those who are kicked often would be more efficient but also would they really find anything I mean they logged in with hacks so nothing was detected as hacks so would further investigation of them really find anything also banning a player from a server for being kicked is stupid and ignorant how many times have players been kicked to make room for friends or because they have equipment that isn't aloud in the room and the hackers die kill kill kill-Goushgar

Deadhead 10-28-2011 07:23 AM

Well the WCS ths morning contains a few hackers but all that made like half a million exp a day are still not banned - and the ones that made over a million exp a day are still there too. Whats going on here is the same as if you went out and robbed a bank - the Police won't think that's a bad crime - but if you robbed Fort Knotts (or passed GPD in rankings) then they would look at this more carefully. I think Nexon has finally gotten to a point of state of confusion (are they hackers or are they NX buyers ??) They don't know who to ban - it does not take a Rocket Scientist to figure out who to ban a just takes a few mins of your time to sit down and look at the stats and use simple logic.

Combat arms reasons not to download or even play it

COMBAT ARMS REASONS NOT TO DOWNLOAD

Hah Everyone knows this game right and a lot of people wanna play it Dan HELL NO DONT PLAY IT DONT DOWNLOAD IT you wasteing your time these are some reasons

- 1.Nexon does not care about what their Players think**
- 2.Guns you have to buy with real money are overpowered**
- 3.Tons of Rageing QQing noobs 9 years olds screaming on the mic**
- 4.Omg Tons of hackers and Non Legit noobs.**
- 5.Mean community and people hack accounts.**
- 6.Players troll On the game ik people troll on every game but To many trolls its annoying its not even funny no more.**
- 7.Combat arms/Nexon Always has a problem with their game**
- 8. *CLAP* THERE YOU GO CLASS DISMISSED**

I Quit combat arms

Flengo

1. Why should they care? They're a successful business.
2. That's marketing, so people buy the guns. Since they're OP.
3. Mute their mic?
4. You're on a hacking forum and complaining about hackers. Nice.
5. People hack accounts because the kids download files from anyone.
6. Why you hatin' on trolls.
7. They're coding team's not that great. But it used to be a good game, before many hackers.
8. I hope I've answered your questions.

Have fun without Combat Arms, Bye! /bye

- 1.Hah Doesent mean they have to be assholes and not listen to their players if their successful company their gonna lose players by that**
- 2.A game doesent need to make you buy op guns with real money**
- 3.i should be able to freely have my voice chat on**
- 4.This is for legit people to look on other Threads * i was about to cuss you out there.**
- 5.People hack accounts cause they want to delete their shit and and Spend their gp on gifting their selfs**
- 6.I dont hate on trolls im a troll myself combat arms has to many of them its not even funny no more like Its annoying as shit now**
- 7.Your right on that one**
- 8.No you didn't answer almost all of them right B+**

1. If Nexon didn't care, then why have they released so much community suggested content such as the brass knuckles, forged weapons, etc. They even "fixed" some of their maps to be more balanced because of player feedback. EX: Neptune or Oil Rig. Nexon DOES listen to their community, they just half-ass things most of the time.

2. Just because someone has an NX gun for perm or NX gear, it doesn't mean you have the advantage over them. Learn the layout of every map and how to properly use GP guns/set-up go combination and you can be on par with NX users. There are plenty of GP items that are better than their NX counterparts and besides, stats don't always matter.

3. What do you expect? Every game has annoying kids or other people, but you just have to learn to deal with it. Besides it's a Nexon game, so do you really expect most of the community to be adults?

4. Combat Arms has always had hackers ever since day one. If you can't handle them, then leave the match, play in a locked room, use elite/super elite moderator in your own room, or don't play at all. Simple as that.

Non legit players? Define non legit.

5. "Mean" community? Combat Arms actually has a much better community than most free-to-play FPS games out there. Sure there is the occasional jackass, but if you aren't quiet and you start conversations in every match, and/or know lots of people who play the game, (whether you know them in real life or not) it's actually fun.

People hack accounts? If you get hacked, it's most likely your fault for being a complete idiot. If you fall for that NX generator/free item crap, then obviously you should just stop playing.

6. Gamers troll in every video game. It doesn't matter what you play. If they make you mad, then just stop playing. It's a video game, why should you be getting pissed off over some virtual bullshit?

7. Wrong. Combat Arms never had any problems years ago. It only started going downhill in 2010 and still continues to do so.

8. You can't dismiss me when I'm not even there. Neither can you decide when I get to leave.

Combat Arms is a game with lots of potential. It's always changing and I wouldn't be surprised if I couldn't recognize the game years from now. I just hate Nexon with a passion, that's all. Because of all the free-to-play fps games out there, it still is the best no matter what people say or all the shit it's gone through because I can always go back, play with friends and have a great time despite Nexon's stupidity.

Overview

Combat Arms is one of the most played free **MMOFPS** in the market nowadays, both thanks to its easy to play, hard to master gameplay and to the low system requirements. A huge playerbase is battling in a dangerous war zone swarming with soldiers of fortune

What's explosive about it:

Low System Requirements

Easy to Play

Many Game Modes

looking to leave their a mark. This online shooter offers a rich free-to-play experience and introduces customization features that will keep you fiddling around with your character. Players have the ability to modify their gaming experience by customizing their character's look as well as which guns and gear to take into battle. A vast arsenal of deadly weapons can be upgraded with attachments such as silencers, scopes and extended magazines.

The game is beginner-friendly while providing huge depth for veteran gamers. By rewarding players who win battles and eliminate enemies with in-game currency and experience points, Combat Arms offers more than just FPS action. Accumulating both will help soldiers rank up to unlock and purchase new weapons and equipment, and an achievement system keeps players engrossed. The game also goes beyond the battlefield and provides a broad set of community tools with a focus on clans. Players are able to recruit, manage, and communicate with their clan members, all within the game.

93 Combat Arms Reviews

DaPunisherz March 19, 2011 at 12:38 am

CombatArms is a amazing free to play FPS. There may be a few hackers in the noob servers like Golf, etc. but once u get to a higher lv there is practically no hackers because they get banned at low lvs. If u see a hacker its easy call a vote. If he doesn't get banned then just leave the match, that simple. Combat arms is probably the best FPS out there!

If u lag in the game its because u dont have the requirements or u have the min requirements which ususally resolves in lag. One thing that helped my lag was buying more RAM i had 512 ram but then i bought some more to make 3g of ram! i dont experiance any lag! To answer a question, its called free to play not, free guns, free equips. Free to play means u dont have to pay to play the game instead of like WoW, Club Penguin, Webkinz, etc. In Combat Arms u get to play for free with the OPTION to pay for other features.

Im sorry but I saw how high it was in that top 10 shooter games. Just came to say that is a lie, this game is has high graphics that bring a lot of lag. Too many hackers come by, as if nexon isnt even trying to stop them. Also I saw that you wrote it had "great balance", this game is one of the least balanced games with their specialists with a high bonus and specialist weapons like the grenade launcher which pretty much a beginner could do making easy kills on even the most elite. Im just trying to say is that this game does not deserve to be rank 2.

Graphics is good, but gameplay is not good.
Enemy and friendly troops are equal, the contrast is low.
I have found a chiter (I've played 1 hour).

And Gameplay too!
The game is very good. The best First Person Shooter for free i've ever seen.
But there are to much hackers. If there are no hackers the game is perfect !

Ok you want an honest review. I have played this for over a year and am ranked Major 1 in EU game. On the plus side it has addictive game play, good clan system, great graphics and good variety of equipment. But the bad far out weighs the good. Lag and lots of it make the game unplayable sometimes. You may get it you may not but it's there. Unbalanced: As above Specialists are most hated in game as no skill required with them and all their kit is over powered, they usually get kicked from rooms. Which brings me onto Elite Abuse..you can buy Elite moderator so you can kick who you want from rooms, this has led to powerlevelling and noob farming by higher ranked players. Money talks..if you have real money to spend you can buy the best kit, NX items, some people have spent over 1k Euro on this game just so they can p0wn all who just play it free. Hackers..major big problem although Nexon are getting better with bans (4th highest ranked just got banned from hack from over a year ago..lol) But Telekillers, OPKers, aimbooters all over the place..which is why alot just play Fireteam against NPCs. Community in general sucks, flaming, whining spoilt little kids. They will insult you in a variety of languages, constantly call you a hacker and report you for every little thing they can think of.

I only play it now to catch up with friends in clan. But my advice would be stay away from it. Nexon have plans in place for new content which alot can see is only going to make the game worse.

If you have a mature attitude this game is not for you. You'll hear the word Pro thrown around all the time from hackers trying to hide the fact that they are hacking. VIP hackers are there alot but hidden well. Public hhjack users just try and ruin every game.

This game was good in its first year and i would give it 5/5. Now it's 2/5.

You noobs think the game sucks? Thats why we have Elite Moderators for -- To kick the hackers and cry babies (such as you guys) out of the damn room. Some people have been playing this game since 2008 (yes the game is 3 years old) and know the maps inside and out! Yes some players hack and cover it up but still - all hackers get caught. So I would suggest that you guys just shut up and if you don't like the game, then shut the HELL up and dont comment on it and let the other people who DO like it enjoy it cuz they don't wanna hear you complaining, "ooooh this game is too harrrrd I can't level uuuuuup" WAH WAH WAH TOO BAD. You cry babies are no better than the hackers. You piss us legit people off as much as the hackers do. Btw, Basker it is NOT HARD to level up -- Play through the damn events and you'll do fine. There have been Bonus Exp and Gp a few times like the 2x gp + exp event where you could lvl in around 1 fight on Trainee or Rookie if you played the right mode. And as Ace said in the first sentence of his comment, this game IS addictive if you play it the right way (the legit way). The hackers just wanna piss you off so no1 plays again, don't let em win. As for the idiots who think that the game is laggy, GET A BETTER DAMN COMPUTER! I'm running Combat Arms full resolution, Full gfx, and it's running just perfect I see no lag at all period done, and if you do see someone teleporting a little bit, then it's their computer, not yours.

Combat Arms was well within my graphic limitations, and even on the lowest graphic settings hiccuped constantly. I'd also like to mention that A.V.A., which my computer is NOT as well suited to run, runs like a dream on all the low settings. Couple that with the fact that that the lag is abysmal, the beginner servers are flooded with players with high-powered guns, and every game I played rapidly devolved to a boring, tedious snipe fest. I can only give this game a 3 in my semi-professional opinion of nitpicking at games, because though it was a waste of a good two hours, it was at least a competent one, and I would like to say you seem a smidge upset people don't like what you do :3

The only people who complain about hackers in this game are the new players. but like every game there are hackers. YES I SAID EVERY GAME HAS HACKERS , After the rank of about maybe msg or sg you stop seeing them so much. The hackers in this game are people who play for about a week and download some hacks because they got bored. But still The game has become a pay2win game now full of jackasses runing around with speedgear and one hit kill snipers because they think it makes you " pro " to run around with a gun EVERY ONE can kill with.

This game is bad. You are bad for still playing it and believing Nexon cares about anything other than money. I'm bad for responding to this bad thread. Upper Cutt Inc. is trash and always has been trash along with the rest of you faggots. If you faggots still play this game, head to bulldog 2 and scrim with some of the teams there. Maybe you'll see how big of failures you are and uninstall when you get stomped in this shitty moneymaking scheme disguised as a FTP game.

I have played for a year now and its a good game if you are man enough to suck it up with the hackers and the lag. Its not perfect but it is much better than any other in my opinion. (and yes i have tried playing the

others like ava or fear and cross fire to name a few) Huge arsenal of guns and gear. Updates every month. Kids that cry when u pwn their ass. And the game play video really doesn't show how fun this game is just check youtube. And some times nexon doesn't seem to be making the game better. But just try it once you have made a kid cry you will never go back just to fun.

Combat Arms is an Amazing game!!!

If you like to cheat, congratulation! You find your game!! There are a lot of people same as you!

If you are a person who lives far away from the game servers, congratulation! This game is for you!!

If you are not good at FPS game, who is looking for a no-skills and just hold mouse#1 game,

Congratulations!!! You cant find any better games anymore, forever, in the future!!!

How to get higher KD in the game? Well there are many ways!

#1 If you are a high ping player, dont worry, and feel lucky! You can buy a +1 +2 speedy Woman, take SMG, and keep Jumping!! Few people can shoot on you!!

#2 If you like to play with bomb, grenade, even the RPG, there are many kinds of BOOOOOOM weapons in the game!! Just throw or shoot the BOOOOOOOM to nearly enemies, they all die!! Or you can learn the men in Iraq or Japs in WWII, taking the grenade and rushing to their base!!

#3 Cheat! Cheat is always the best way to get high!! Dont worry about punishment, the company doesnt care!! If you worry about the kick, you can learn some smart people, using cheat before the ending!!

I remember when Combat Arms was not popular at first, then there were no hackers.

Once i returned many years later.. i think? Time flies you know.

I was surprised by the amount of hackers, GAME after GAME after GAME.

You spawned, you were instantly dead or took two steps and were dead.
Gameplay was great ofcourse back in the day, I however CANNOT comment on the current state because i could NEVER find a server that had NO hackers or had one join 1-3 minutes once the game was in.

Those that say there are a few hackers, seriously you need a wakeup call and stop playing in private game rooms.

Stop misinforming people.

WOW i half to comment on this . Look i played combatarms for over 3 years . back before snowball fight was out . Combat arms is a sad game . IT is very addictive and trying to Bare the hackers is a hard thing to do and u have just as many VIP hackers hi lvl as u do pub hackers in lower lvls dont lie to people about the game . I made rank of 2LT with a crappy KDR when Snowball Fight was first implimented into the game it was bugged so bad people were power lvling in this mode Sad to say they banned people for power lvling befor they will bann for hacking . NEXON is a worthless company and CombatArms is a great MMOFPS NEXON needs to do more about security so players can play . And this crap about MODERATER'S is bull shit . 90% of Moderators are FKing hacking and Kick anyone that poses a thret to them and they dont get into trouble at all . SO u can talk up the game all u want It is a great game but the owners of the game SUCK and so do most of the players . I remember when the first good pub came out for it from THISGAMESUCKS atleast 5 people in everygame using NO RECOIL CHAMS NAMETAGS NO SWAY AND many other the game was WAS a very good game never had allot of issue with lagg on my desctop but with all the hackers and the wannabe MODERATORS the game SUCKS needs a complete revamp and new security

Reply

jemoeder November 9, 2011 at 6:35 pm

If you have a good pc/laptop and good connection with the internet, it won't lagg, only the hackers and the modders are stupid, but ignor them, just leave or vote these guys, report them, that's all.

This game has sick gameplay everything about the game itself is very good but the community is so bad it makes it not worth playing.this is now the most hacked game out there because nexon makes money off of hacks now.every VIP thats baught nexon gets 25% of it and they get paid when they patch so hacking companies can make more hacks to sell.the game itself is awsome though its fast paced great weapon armory and cool character customization.nexon is a bad company.Nexon America that is ive seen combat arms EU and its nothing like this and if i can i will be trying to join EU.i sometimes wish IJJI owned this game.it would be so much better and way less hackers.i honestly get bored with every other fps out there except AVA but i lag to much for AVA.combat arms was fun back then but now its a waste of time if you have no patience and a short temper.

i cant seem to even play the game anymore. the pando media booster for some reason won't ever DL correctly and i get tired of downloading and getting halfway through instillation and it shutting down on me again. i've tried the process on all three of my computers and at this point if my anti-virus and anti-spyware software keep shutting pando media booster off i dont think i should grant it access anymore through my firwalls, so im conclusion loved the game while i could play hated the hackers but i was high enough rank where i didn't see them so often. but this game is a must play!!!

combat arms is a really good game but its full of hackers and u can't do anything about them cause the can crash game (i mean if u try to kick them out of the game/channel/room they would crash the game and leave). (10 out everyone game you play there are about 7 game where a hacker would crash it so you have to start all over again) They are pretty much in every server and its not only noobs that hack its also the high rank players too.

And releases new map and modes. I have been playing this game since it came out and in my opinion, i would give this game a 9/10.

This game is just horrid in its current state. The weapons are not balanced. Snipers, modders, hackers, those are the only people that get good k/d ratios. I do think the starting weapons are optimized but any weapon involving nexonpoints are "tryhard" weapons.

Combat arms is great in most ways but i found that AVG has lots of issues with mmofps games just a reminder, if you have AVG TAKE IT OFF OR TURN IT OFF BEFORE YOU PLAY . Back on topic, Combat arms delivers good fun, However weapons are imbalanced like the m4a1 on CSS, an m-16 compared to the f2000 is of course going to win but the free to play factor makes it cost money for better weapons and usually i pay \$25 for a permanent gun RIP OFF it should be like \$1 for a gun.tly Honestly i suggest Battlefield play for free because you can actually aim down your sights which is extremely rare or if want to get real buy a game that cost money really its not that big of a deal Best buy has starwars battfront 2 for \$5!

Guys don't quit the game because there is too many hackers. Just remember this. Hackers are low life bitches who use cheates and hacks because they suck at games and can't get a friend. They suck at life and deserve to be f*ck*d up till there eyes turn red and the start crying. They couldn't even kill a round one nazi zombie on Call of Duty Black Ops in Kindertoten with a Thunderbird thats fully upgraded without hacks. It is sad, just truly sad. Thank you.

Reply

Shadow June 7, 2012 at 5:30 pm

It's either that our the guys that are saying there are hackers just suck at the game and whine because the others are better so they call them hackers. I've been in many situations like that.

DangIT June 8, 2012 at 6:15 am

I left there about 2 years ago because the hacking was so bad, doesn't sound like much has changed. I'm thinking about going back to check it out, if I do I WILL NOT spend one more red cent on any advanced weapons etc. Not going to pay for something I can't enjoy because of all the idiots.

Reply

DangIT June 9, 2012 at 6:31 am

I went and checked it out. Very Very Sad. When I left all of the servers and available channels were always packed. Now I see one channel on each server with quite a few players and the rest are all dead. I've found maybe two or three games total where there was no apparent hacking going on, the rest were ridiculous. I checked on the old Clan I belonged to back then and they all left within about a week after I did and none are currently playing either. It was a GREAT GAME before the hacking and now it's simply not worth the time. The last game I played according to the records there was on September 20, 2010. I was [GA]rgoyle of the

Golden Army Clan created by [GA]ngle. Even the clan name has been used by several others since then but none of our members. I will be dumping the program tonight, there's really no sense in going back, it's simply not fun there anymore.

DangIT June 9, 2012 at 6:34 am

Disregard the clan above that was at another game I left about the same time for the same reasons.

Ok, hey guys my e-mail account was hacked when a guy sent me a e-mail saying he didnt like what I said above and to screw it. He somehow got my phone number and started cursing me out so I told him suck it and he couldnt kill me in Combat Arms without hacks so we made a private match and he was killing me by 5 so I told him take off the hacks, lets see who is good then. After that and thier was 30 seconds left and we were tied I told him he was actually pretty good. Then outa nowhere a grenade fell so I jumped off the building I was on and threw a grenade. It ended up killing him. He fake reported me but when the server found I never hacked but instead found out he was hacking they banded him permantly. One hacker down, what 1 million to go?

Great game. I've played for 2 years now. The clan sytem is great, i have no lag issues, good guns/customization/upgrading guns. The community isn't very good almost like any other online game. The noob servers are full of hackers but once you get to the higher level servers you only run into a hacker occasionally. Sniping used to be fun until everyone yells and complains about you not quickscoping(hmmm sounds like C.O.D) This is definately better than warrock, crossfire, and a.v.a as i have played all of those.

Great maps and it does have ingame voice chat that is full of bugs and doesn't work for about half the people. No problem though if you use ventrilo or teamspeak. Some guns are overpowered making certain games unbalanced. There are also specialist(these bitchy little things that get overpowered guns like grenade launchers, medkits, flamethrowers, and miniguns) They make games unbalanced, are skinny as hell so they are hard to hit, and when you hit them with a sniper it usually takes 2 chest shots to kill _-. Overall i think it is still the best f2p fps out there. Lots of people still play and it isn't hard to make an account and get started. Clans make the game a lot funner and if i didn't have a clan i think i would get bored. I would rate this game an 8.5/10.

Enigmatic June 21, 2012 at 2:44 am

I've played the game for right around 3 years... Good(and customizable) graphics, so even computers that aren't that great can run it well. The gameplay is more balanced than people would like to admit, as being a specialist doesn't give you a HUGE advantage... plus most of them are nerfed now anyway. The only time the game is imbalanced is when people team stack, or an elite moderator is ragekicking everyone. Playing as long as I have, there are definitely lots of hackers... but you can still get into LOTS of games with no hackers. I normally wouldn't comment on a site like this, but all the negative comments I read made me want to. If you're looking for a good FPS, download and play this. It's fun, not hard to level or make the in-game currency, and you can even get the cash-shop items for free occasionally by participating in the events.. This is most definitely one of the best F2P Shooters out there.

Look now Combat Arms has alot of hackers which is interesting as when you open it up it says HackShieldPro ... well thats no help, the frek'in Combat Arms community need to make everyone who host a game be first of all not a hacker but let them have the ability to kick whoever hacks I know about 10 people that hacked the NX part which if you wanted it you would need to pay real money to get it... so hackers are getting free NX ... UNFAIR! So a VoteKick is going to do no crap for the hackers have Anti-Kick only an Elite Moderator (which cost NX) can kick them.

I've played for 4yrs and the hackers just ruin everything... !HACKERS SUCK!

Please if you play the game gift me some weapons the Username is Chaos00Death ok!

Thank You

A lot of cheeters, glich & bug users. Not to mention elit abuse (for kicking better player).
Too much laggs and game crush. In game, u will see how players left the game (with red ping). Like a popcorn 🍿. You must have at least 8 mb/s internet speed (and that isn't guarantee for cleen (whitout laggs) game).

I play the game since 2009 and then was a great, but with the introduction of special forces and mercenaries, the game became so fast that it seems to me that it has a tendency to self-destruction. It looks like it's too much information that can be processed in one room and almost all public channels (without any of the limits) are almost always full.

The only thing that keeps this game on my computer are playmates. But it is matter of time when I'll delete it.

"Awesome Game!! I have invested over \$60"

January 22, 2011 | By [DeathSavvy](#)

Version: Combat Arms

Pros

Fireteam modes are a lot of fun without PVP Hacking.
 You get random awards weapons and gear all the time.
 Easy to get your friends to play as it is free and rather low resource game.

Cons

Sometimes hackers in PVP (usually kicked from room in a few seconds)
 Hard to play enough to buy good weapons everyday as they

expire.
 Perm weapons from \$10-\$20 help give you an edge over GP items.
 You need to be Good at FPS

sites:

Summary

Great game. hours of fun. Always new maps and modes. New weapons and gear monthly. Better than console, new console every five years and a new COD or whatever every two years. Best Zombie Killing Mode Ever!! Cabin Fever and Black Lung.

I urge anyone to try this. Add me as a friend DeathSavvy

"Combat Arms takes it away with its awesomeness."

December 24, 2010 | By [azninva5in](#)

Version: Combat Arms

Pros

Good graphics
 Awesome selection of weapons
 GREAT weapon balance (with a few exceptions)
 Doesn't favor people who pay
 Extremely fun
 Great gamemodes and maps
 Great customization
 Monthly, sometimes weekly updates with new content
 Etc.

Cons

Honestly nothing else.

Summary

Don't listen to the one star reviewers.
 As of 2010, Combat Arms is so low on hackers that it is practically completely devoid. Seeing a hacker is a rarity. All online games have "hacker periods" every once in a while.

All in all, Combat Arms is very fun and has kept me occupied for 2 non-paying years.
 You can not pay a cent and frag out with people who do, and actually beat them!
 New content is a plus, as it greatly helps update the game and its internal workings. For example, the Warrock website still displays a Halloween theme. It's Christmas. See what I mean?

"CA is a waste of time until hacking issues are resolved"

November 29, 2010 | By [123chip123](#)

Version: Combat Arms

Pros

gameplay is exciting and skills and tactics can be developed
buuuuut.....

Cons

HACKS! The game is so full of hacks that it is all but impossible to play in a fair game. Site claims 2 "take hacking very seriously" but thats only lip service. There are 1000's of hackers who have been vid taped while hacking but arent banned.

Summary

The game cannot be properly evaluated until something is done about the excessive amount of hacking. I come across 20-30 hackers in a typical hour of gameplay-the site bans about that many per day. The chances of getting banned for hacking are probably in the neighborhood of 1 in 10000

"Good potential, but too many cheaters ruin the fun"

November 20, 2010 | By [channelsurfer](#)

Version: Combat Arms

Pros

Low system requirements (even runs on Intel GMA)
Free to play
Decent graphics
Acceptable download size
Easy to install and uninstall
Good variety of weapons, maps, and game modes
Fast paced
Would be very fun if not for cheaters

Cons

Overrun by cheaters (about 1/3 of players hack and/or glitch)
Updates don't stop hackers
Lots of glitches

Minimal instruction and relatively steep learning curve
 No single player mode or bot addons
 No LAN
 Noobs can't get good weapons, armor, gear

Summary

Overall, this game is unplayable unless you set up a password protected match between friends, you start hacking, or you don't care about being dominated. Otherwise, this is a pretty good arcade style shooter (similar to Counter Strike). Physics and graphics aren't super realistic, but good enough for a casual player. Low system requirements allows slower computers to run without problems. Noobs will feel a steep learning curve and find it hard to compete. Experienced players have many advantages such as familiarity with maps, access to better weapons, armor, and gear. There's a ridiculous amount of hackers. Many honest players will either start hacking in order to compete or get fed up and quit playing. There is a vote kick feature, you can pay for elite moderator status, and there's an abuse reporting system, but it all seems rather ineffective and can't keep up with all the cheaters. If not for cheaters, I would have given this game 4 stars.

"Love most of it, hate some of it."

August 16, 2010 | By [n00bk11r](#)

Version: Combat Arms

Pros

Cost, Maps, Updates, Communication tools, General Functionality. And the best reason... low system requirements and overhead. We have run this on a 5 yr old Laptop. Do that with any other current FPS especially an Online Version.

Cons

Support and Hackers. The process for support (like my Nutshot count that has been broken since I started playing) is done via email, and you get a canned email response (auto generated no doubt). Human interaction appears impossible to achieve.

Summary

Note 1: Free to play; True, however, I am in for over \$120 now. So don't kid yourself. Nexon pulled in over 1 Billion last year due to this free game. Now, its not required to spend real cash, but its so addicting to play and have that edge, you'll want to :), and that it is what they count on with a newer and better gun available every couple weeks. Usually to the highest ranks or if you have the right amount of real money.

Note 2: Hackers/Accusations; I would and have recommended this to many people. However, I caution them against investing more then they can afford to lose. It is possible that through no wrong doing of your own, your ID could be suspect of hacking and Nexon could ban your account without warning and without verbal discussion. Also, if you play well you will likely be called a hacker, Don't take it personally, those of us that have been in here for a long time know that there are allot of false accusations.

Note 3: Read the agreement. My son (w/\$100+ invested into his account) was suspended last week for a week. He was not given any warning, nor an explanation. When he did recieve an email from Nexon it said 7 days for "etc". Not sure what that is, but again, your invensting in a perminent weapon is really an investment into them allowing you to keep playing. Not a big fan of suspensions or bans without explanation (with an emphasis on making sure the client knows what they did so they can not do it in the future). My favorite rule in the guide (sorry can't find the exact quote now) was something to the effect of not negatively effecting another users gameplay experience. I think shooting them violates that one!

Note 4: Even with the gripes above, I have 1000's of hours invested in my ID. I think they offer a really fun and challenging

game to the consumer market. The growth options, Map and Gear updates as well as the excellent graphics make this a hit for me, my friends and my kids.

Note 5: New Character; If you have stayed with me this long, I will give you a hint. Select a female character at creation. Its not macho, however, it gives you an edge on 2 counts. I have not seen it written on NEXONS site or anywhere else, but I swear the hitbox is as small as the female character and the speed (including jumping hieght and distance) is better. It's all about tactics, start early. If you don't or you already have any account, you can change to female for \$10 ;).

Happy gameplay. Look forward to killing... eerrrr seeing you soon.

"Used to be a good game, but too many hackers."

August 12, 2010 | By [spesetfides](#)

Version: Combat Arms

Pros

Excellent weapons choice, graphics, progression to higher levels, never boring.

Cons

A couple of years ago, this game was great, but the Hackers spoiled the game by using "god" code/scripts and game scenario hosts are sore losers and kick players that are winning. No appeals and this happened to me.

Summary

If you don't cheat or hack and you get rank, you will most likely get "kicked" by the cheaters/hackers.

"Combat Arms will rob you blind"

June 3, 2010 | By [killrwabbit](#)

Version: Combat Arms

Pros

Alot of fun

Cons

Too many hackers to be the best. Combat Arms will ban you for being too good due to other players putting in complaints about you. You have to buy guns if you want to be better than the other guy. If they ban you you will usually lose any appeals

DEPOSITION OF

DAVID ALLEN BAKER

October 26, 2012
9:43 a.m.

Andaz Savannah Hotel
14 Barnard Street
Savannah, Georgia

Thomas J. Dorsey, RPR, CCR-2781

Job Number: 54888

1 A. About five years.

2 Q. And that was the time that Pineland
3 purchased it?

4 A. Right. We did it for about five years;
5 then they bought us.

6 Q. Okay.

7 A. And I stayed on for a year or two.

8 Q. Okay.

9 A. And then I've quit.

10 Q. So that was about 2002 that you stopped?

11 A. That I stopped working there?

12 Q. Yeah.

13 A. No. This was, like I said, about two
14 years ago.

15 Q. Okay.

16 A. So '9, '10.

17 Q. So 2009-2010?

18 A. Somewhere around there.

19 Q. So since 2009-2010, what have you been
20 doing?

21 A. Mainly this website.

22 Q. And can you say what the website is?

23 A. Game Anarchy.

24 Q. Okay. And can you explain what Game
25 Anarchy does?

1 A. We just offer basically software.

2 Q. Okay. And what kind of software is that?

3 A. Just game enhancements I guess you would
4 call them.

5 Q. Okay. So the software is sold? Do you
6 sell it?

7 A. We don't sell the software itself.

8 Q. What do you --

9 A. We sell access to our forums.

10 Q. Okay.

11 A. And it's in our rules. It's been that way
12 since the site has opened.

13 Q. Okay.

14 A. In big letters it says, we do not sell
15 software.

16 Q. So what year did the website start?

17 A. Approximately, I think it was, 2008.

18 Q. Okay. And did you build the website?

19 A. Yes.

20 Q. Yourself?

21 A. Yes.

22 Q. Did anyone else help you with that?

23 A. Not that I recall.

24 Q. Okay. And who hosts the website? Do you
25 use a service?

1 Q. Is that hosted separately?

2 A. Yes.

3 Q. And where is that hosted?

4 A. IX Hosting.

5 Q. Okay. And what is that?

6 A. That's just another Internet provider.

7 Q. Where is that located?

8 A. I don't recall.

9 Q. Is there a reason you use different
10 servers to host?

11 A. Just to have two so nobody else can
12 register the domain.

13 Q. Okay. And why did you switch between the
14 Amsterdam servers?

15 A. I wanted a virtual server, and the other
16 one was a managed server. That means that they
17 handle all the stuff. And the one I currently do, I
18 do everything myself.

19 Q. Okay. So the server is basically just a
20 hosting location, but you have full control over --

21 A. Right.

22 Q. -- everything that goes on?

23 A. They just provide the hardware.

24 Q. Okay. So do you create the software as
25 well?

1 A. Yes.

2 Q. Does anyone else help you with that?

3 A. No.

4 Q. Has anyone ever helped you with that?

5 A. I mean, I've read things off the Internet
6 from other people, if that's what you want to
7 include, but directly, no.

8 Q. Let me ask you. So I was going to say,
9 did you build it from scratch?

10 A. Yes.

11 Q. So did you use pieces and you found other
12 places?

13 A. Well, actually -- I'll kind of like
14 correct that.

15 Q. Okay.

16 A. Originally the software was given to me by
17 somebody, and I've maintained it myself over the
18 couple years. And I don't remember where it
19 originally came from. It was just a member on the
20 site.

21 Q. So the site existed before the software?

22 A. I figure you'd be talking specifically
23 about Nexon, the Combat Arms software.

24 Q. Well, for now let's just -- any software
25 that you had on the site. We'll start there and we

1 can go on to specific --

2 A. I would say it was mine.

3 Q. So I guess we'll back up a little bit.

4 A. The site, I believe, was up before Combat
5 Arms.

6 Q. Okay. So when you started the site in
7 about 2008, was there software available through the
8 site, any software?

9 A. I believe so.

10 Q. And what would that have been? What
11 software was that?

12 A. Well, it's the same software, just for
13 different games.

14 Q. Yeah. I think maybe it will help clarify
15 if we start talking about the actual software. Would
16 that be helpful?

17 A. There's two components to the software.
18 That's what I'm talking about.

19 Q. Yeah. So let's go ahead and go there. So
20 why don't you -- can you explain what software is
21 available?

22 A. It's basically what you would call the
23 client, which people can download in, and then
24 there's software specific to every game.

25 Q. So what is the client exactly?

1 A. That's just a -- just a hub for
2 distributing the other software, I guess.

3 Q. Okay. And that is something that a user
4 would download from the website?

5 A. Yes.

6 Q. Okay. And what kind of code does that
7 consist of? Is it just an exe program, that sort of
8 thing?

9 A. Just an exe.

10 Q. And what is it called? What do you call
11 it?

12 A. Loader.

13 Q. Okay. What is the actual name of the file
14 that's downloaded?

15 A. I don't recall. It's been up there for
16 years.

17 Q. Okay. Has that changed at all since the
18 website started?

19 A. Maybe a few times, but just for updates.

20 Q. Did you make those changes?

21 A. Yes.

22 Q. Okay. Was there any reason for any
23 particular update?

24 A. Just maintenance.

25 Q. Okay. I mean --

1 A. That handles server changes.

2 Q. Okay. So a server change would require
3 the software to be updated?

4 A. Yes.

5 Q. Why is that?

6 A. Because the IP of the server is hard-coded
7 into it.

8 Q. The IP of the server that hosts the
9 software?

10 A. Right.

11 Q. So, if you change servers, you have to
12 update the software?

13 A. Yes.

14 Q. Okay. And so is this loader software the
15 software you were given?

16 A. No.

17 Q. Did you create the --

18 A. I coded it up by myself.

19 Q. The loader?

20 A. Yes.

21 Q. And you did that before you started the
22 website?

23 A. Yes.

24 Q. Was that the reason for creating the
25 website?

1 Q. Okay.

2 A. This was years ago.

3 Q. And so would it be accurate to say the
4 time frame for that was 2006-2007 right before Game
5 Anarchy?

6 A. I would say approximately, yes.

7 Q. Okay. I'm going to back up a little bit.

8 A. I'll just say at the time -- well, it
9 couldn't have had anything with Nexon at the time,
10 because the game was not even around.

11 Q. Yeah. And I'm trying to get your
12 background and everything, too, so...

13 Also, I just want to mention that if you
14 need a break at any time let me know. We can do
15 that, so, to just clarify.

16 Do you currently write code? Make
17 software? Any maintenance for any other websites?

18 A. No.

19 Q. Just yourself?

20 A. (Nods head.)

21 MR. MULLINS: I'm going to show you an
22 exhibit. I'm going to mark this Plaintiff's
23 Exhibit A.

24 (Exhibit A was marked for identification.)

25 Q. (By Mr. Mullins) Do you recognize this?

1 A. It looks like it's from the website.

2 Q. Okay. Is this your website?

3 A. Yes.

4 Q. And what part of the website would that be
5 from?

6 A. Forums.

7 Q. And is DrUnKeN ChEaTaH yourself?

8 A. Yes.

9 Q. Does anyone else ever post under the name
10 DrUnKeN ChEaTaH?

11 A. Not to my knowledge.

12 Q. Okay. Have you read this post thread?

13 A. Yes.

14 Q. So can you tell me a little bit what it's
15 about?

16 A. Apparently another website put me in their
17 credits.

18 Q. Okay.

19 A. Which, let me make sure this is the right
20 one.

21 Q. Yeah, certainly.

22 A. Yeah.

23 Q. And I just wanted to ask, so was this your
24 response?

25 A. Yes.

1 Q. Is there a reason why you're so adamant to
2 say that you were not coding for anyone else?

3 A. Because I didn't want my customers to
4 think that I was leaving them.

5 Q. Okay. Thank you. You can set it to the
6 side.

7 Okay. Just some more background stuff
8 too. Have you ever been involved in any previous
9 lawsuits at all?

10 A. Yes.

11 Q. And what were those?

12 A. Aggravated assault.

13 Q. Okay. And when was that?

14 A. Around '95.

15 Q. Okay. How did that resolve?

16 A. Badly.

17 Q. Okay. Have you ever been in any lawsuits
18 related to the website or software or anything like
19 that?

20 A. No, no.

21 Q. Have you received any cease and desist
22 letters from anybody?

23 A. Not to my -- not that I recall.

24 Q. Okay. I'm going to just ask you little
25 bit about --

1 Q. Okay. But you did install the software?

2 A. Yes. I would say I did --

3 Q. Okay.

4 A. -- because it's on my computer.

5 Q. Okay. Have you ever played any sort of
6 game that has a terms of use?

7 A. I'm sure every one has.

8 Q. And do you usually read those?

9 A. I'd say no.

10 (Interruption.)

11 Q. (By Mr. Mullins) So you were just
12 saying -- I just asked do you usually read the terms
13 of use, and what was your answer?

14 A. No.

15 Q. No; okay.

16 You do understand what a terms of use or a
17 user license agreement is generally?

18 A. Basically, yes.

19 Q. Can you describe to me what that would be?

20 A. Well, I guess terms of use would be what
21 it says. You can use the software if you follow
22 these conditions.

23 Q. Okay. And do you think that's an
24 enforceable agreement?

25 A. No.

1 Q. Why not?

2 A. Because some people just like to play the
3 game that way.

4 Q. Do you think when one person cheats it
5 affects other plays of the game?

6 A. If you want an opinion, no, I don't. No,
7 not really.

8 Q. So you don't know about anyone --

9 A. I don't take it that serious myself, so --
10 or I don't play, so I don't know what the effects or
11 what people are thinking.

12 Q. Okay.

13 A. So I would have to speculate.

14 Q. Do you think that using Game Anarchy's
15 software is in violation of Nexon's terms of use?

16 A. Like I said, I wouldn't -- I don't know
17 the exact terms what they're saying, so I'd have to
18 go back and read it --

19 Q. Okay.

20 A. -- again or whatever.

21 Q. Are you aware of people being banned from
22 Combat Arms for using Game Anarchy software?

23 A. Well, I'm aware of people saying they have
24 been banned.

25 Q. Okay.

1 A. But I don't know what they've done to get
2 banned.

3 MR. MULLINS: Okay. I'm going to mark
4 another exhibit here. This will be Plaintiff's
5 Exhibit D.

6 (Exhibit D was marked for identification.)

7 Q. (By Mr. Mullins) Let me go to the second
8 page. Do you recognize this as another forum post?

9 A. Yes.

10 Q. On the second page, do you know who this
11 poster Distress is?

12 A. No, I don't.

13 Q. I mean, have you seen that name before?

14 A. On the forum, yes.

15 Q. Do you generally read these forum posts?

16 A. I don't read every single one, but I read
17 some.

18 Q. Did you read this one?

19 A. No, I didn't. I don't think.

20 Q. Do you believe that the Game Anarchy
21 software is a hack? Would you use that term?

22 A. I believe it's a common term.

23 Q. Okay. And do you believe that it bypasses
24 HackShield?

25 A. My software or this --

1 Q. Yeah.

2 A. -- post?

3 Q. Your software.

4 A. No, I don't.

5 MR. MULLINS: Okay. Let's go through some
6 more exhibits. This will be Plaintiff's
7 Exhibit E.

8 (Exhibit E was marked for identification.)

9 Q. (By Mr. Mullins) Do you recognize this as
10 another post from your forums?

11 A. Yes.

12 Q. Did you read this post?

13 A. I don't believe I have.

14 Q. Does the term closet hacking mean anything
15 to you?

16 A. My understanding is just people don't use
17 features that will obviously say they're using our
18 software like a spammer or something.

19 Q. Okay. So some features you offer are --

20 A. Are more noticeable.

21 Q. To who?

22 A. To other users, I guess.

23 Q. Okay. And why would someone not want to
24 use a noticeable feature?

25 A. I'm not sure. They're there. They can

1 use them or they don't.

2 Q. So you think if someone uses a noticeable
3 feature they're more likely to get banned?

4 A. I have no idea of Nexon's banning
5 procedures.

6 MR. MULLINS: Plaintiff's Exhibit F.

7 (Exhibit F was marked for identification.)

8 Q. (By Mr. Mullins) Do you recognize this as
9 another post from your forum?

10 A. Yes.

11 Q. Did you read this post?

12 A. No, I haven't.

13 Q. What does it mean when there is this ban
14 stamp on someone's account?

15 A. It means that one of my -- somebody has
16 banned them from the forums.

17 Q. Banned from the forums?

18 A. So they can't post anymore.

19 Q. And why would someone get banned?

20 A. For breaking rules, basically.

21 Q. What are the rules?

22 A. They're listed on the site. Just basic
23 common sense, don't spam forums.

24 Q. Okay.

25 A. Advertising and other sites, things of

1 that nature.

2 Q. Okay. Do you have any idea why this
3 particular person was banned, iwubyou?

4 A. No, I don't.

5 Q. Do you recognize what this user was
6 posting about?

7 A. It seems to be posting some status codes
8 like when the game is -- when they're updating their
9 servers. It's code 160 maybe.

10 Q. Okay. And what about the code banned for
11 zero days? Do you recognize that code?

12 A. I don't see a code.

13 Q. Or error?

14 A. Are they saying that's the code, banned
15 for zero days? I don't know.

16 Q. Has anyone ever raised with you as the
17 software creator a problem that they've been banned
18 looking for a way to prevent that problem?

19 A. I'm sure they might have asked, but
20 there's no way for me to control the bans.

21 Q. So you have been asked?

22 A. I don't recall. I'm saying it's possible
23 they asked. I don't read all the posts.

24 Q. Okay. Are there certain techniques a user
25 of your software could use to avoid being banned?

1 A. No. It has nothing. One, I don't know
2 what Nexon -- how they determine bans.

3 Q. Okay.

4 A. So I don't know how I could avoid
5 something I don't know.

6 MR. MULLINS: Okay. Plaintiff's
7 Exhibit G.

8 (Exhibit G was marked for identification.)

9 Q. (By Mr. Mullins) Do you recognize this as
10 another forum post?

11 A. Yes.

12 Q. Did you read this forum post?

13 A. No, I haven't.

14 Q. Do you know the poster dash vasiliiy?

15 A. Do I know him? No.

16 Q. Have you ever seen that name before?

17 A. Not that I recall.

18 Q. What does it mean to be a hero member?

19 A. I think that corresponds to how many posts
20 you've made.

21 Q. Okay. And did you set up --

22 A. It was preset up in the software.

23 Q. So what is the software you used for this?

24 A. SMF, which is Simple Machines Forums.

25 Q. Okay. So for the forums you used a

1 It's a feature they wanted.

2 Q. Okay.

3 A. Or to stop so many things from posts
4 saying how do I do this or, you know, I'm getting
5 ready to be team viewed.

6 Q. Okay.

7 A. What do I need to do.

8 Q. And how do members make requests to you?

9 A. Forums.

10 Q. Through the forums? Is that the only way
11 to communicate with members?

12 A. Yes, basically. They might send me an
13 e-mail, but I do not respond to them.

14 Q. Okay. So you don't respond to e-mails
15 from members?

16 A. No. That's the purpose of the forums.

17 MR. MULLINS: Let's go through a lot of
18 these. This is Plaintiff's Exhibit H.

19 (Exhibit H was marked for identification.)

20 Q. (By Mr. Mullins) Do you recognize this as
21 a forum post?

22 A. Yes.

23 Q. And is this post from you?

24 A. I believe it is.

25 Q. What is this post about?

1 A. At the time I guess 2009 you could just
2 type into like the chat certain words and it would
3 cause a HackShield to detect it, no cheats at all nor
4 other software loaded, just type in that word and
5 people were -- I guess -- I guess they just searched
6 the computer for that.

7 Q. When you say type in chats --

8 A. You can have your -- if it finds that text
9 in the computer's memory, then it would, I guess, you
10 know, kick you from the server.

11 Q. If what finds that word?

12 A. I guess HackShield.

13 Q. And what is HackShield?

14 A. It's what Nexon used to monitor their
15 games.

16 Q. Okay. Do you know how HackShield works?

17 A. Not specifically. But generally I believe
18 it's scanned memory for looking for certain things
19 like a virus scanner or something.

20 Q. Okay. And how did you find out about
21 HackShield?

22 A. It's just part of a lot of different
23 games.

24 Q. Okay. So when you say in this post
25 HackShield will kick just for having certain words in

1 memory, what do you mean by kick?

2 A. I believe it closes the connection.

3 Q. Okay. And what do you mean by pattern
4 scans?

5 A. Just its method of searching the
6 computer's memory.

7 Q. Okay. So you agree that HackShield
8 searches memory for certain patterns or words
9 associated with cheats to prevent their use?

10 A. I mean, I assume that's a method they use.

11 Q. Okay. You recommend following certain
12 steps here. Can you walk me through each of these
13 four steps?

14 A. Close your browsers like Explorer or
15 whatever.

16 Q. What's the purpose of that step?

17 A. Because files on the computer might be
18 locked if other programs are using them.

19 Q. Okay.

20 A. So the point is to close everything down
21 that you can so CCleaner is a free program that just
22 cleans up your computer, temp files and things.

23 Q. Okay.

24 A. And just reboot the computer, which is
25 another step to keep other programs running, because

1 usually on startup, that's when the least amount of
2 programs are running.

3 Q. Okay. So what do you mean when you say to
4 make sure all, quote, bad, unquote, words are wiped
5 from your RAM?

6 A. Because when you reboot the computer, they
7 would not be there.

8 Q. What would a bad word be?

9 A. Well, I think I gave an example there. If
10 you mean an account with aimbot, you typed it into
11 the chat. That would be a word that they considered
12 bad.

13 Q. And what's aimbot?

14 A. That's a common term.

15 Q. What does it mean?

16 A. It means it's a -- to help someone aim,
17 you know. It's a shooting game, so it would aim
18 their gun at somebody else.

19 Q. Okay. And why can you not visit any hack
20 sites after reboot?

21 A. Because it would put the -- it would
22 possibly put those bad words into the memory again.

23 Q. Okay.

24 A. Which is...

25 Q. And why would you want to only run the

1 loader after doing these steps?

2 A. Because people were complaining about
3 things, and this was stuff beyond our website's
4 control. But we were trying to help them fix
5 problems, because people are saying they were -- the
6 game was crashing on them without using our software.

7 Q. Okay. So then why would they need to run
8 the Game Anarchy loader that's unrelated?

9 A. Because it was crashing or whatever and
10 wanted to clear it up, make sure it wasn't a bug in
11 our software.

12 Q. Okay. And this last section, this last
13 part where you said if you make a new account and
14 find it's banned, try starting the game directly
15 instead of using Nexon's website, why would that be
16 helpful?

17 A. I don't know. It's just a way where you
18 don't have to open up a browser.

19 Q. And why is that a good thing?

20 A. Like I said, the less programs they have
21 running -- you know, maybe they have their home page
22 set to another site.

23 Q. Okay. Could you go to the Game Anarchy
24 website and have the game run find?

25 A. You mean have it open?

1 Q. Yes.

2 A. I don't know now, but I think people were
3 saying that they were having problems.

4 Q. So people --

5 A. So this was kind of a response to that.

6 Q. People had problems using --

7 A. Not just our site, but other sites.

8 Q. But did people have problems using your
9 site specifically?

10 A. I don't recall specific ones, no.

11 Q. So all the complaints were about other
12 websites?

13 A. I would have to go back and look at the
14 issue. It's three years ago.

15 Q. Since 2009, have you ever received
16 complaints about people using your website and having
17 problems with Combat Arms?

18 A. Just visiting the website? If that's what
19 you mean --

20 Q. Yeah.

21 A. -- I don't know.

22 Q. Has there been complaints using the
23 software and having problems with Combat Arms?

24 A. What do you mean? Do you want me to
25 guess? There probably were, but I don't recall.

1 Q. I don't want you to guess.

2 Have you ever received a --

3 A. I believe we get messages all the time
4 saying that they're having problems.

5 Q. Have you ever received message saying I've
6 been banned using your software? How can I prevent
7 this?

8 A. Not that I recall. It could be there, but
9 I don't -- like I said, I don't read every single
10 message from some random person.

11 MR. MULLINS: Okay. Plaintiff's
12 Exhibit I.

13 (Exhibit I was marked for identification.)

14 Q. (By Mr. Mullins) Do you recognize this as
15 another forum post?

16 A. Yes.

17 Q. Do you recognize this user, GM-x4kOr?

18 A. Not personally.

19 Q. Do you recognize the name?

20 A. Not really. I mean, we got 150,000 people
21 that use the forum, so...

22 Q. Okay. Do you know what a hardware ban is?

23 A. In general? Just that it's -- that
24 instead of -- it locks a ban to a user's specific
25 computer.

1 Q. Have you ever seen this logo Cedar Hawk
2 player helper in the signature block?

3 A. I see it. What about it?

4 Q. He seems to indicate that he is associated
5 with Game Anarchy. Do you agree?

6 A. I don't see that means he's associated,
7 but he's saying he's --

8 Q. Is he?

9 A. No more -- just that he's being helpful.

10 Q. Okay. So do users often give advice to
11 other users on the forums?

12 A. Yes.

13 MR. MULLINS: Okay. Plaintiff's
14 Exhibit J.

15 (Exhibit J was marked for identification.)

16 Q. (By Mr. Mullins) Do you recognize this as
17 another post from your forums?

18 A. Yes.

19 Q. What is lifetaker hack?

20 A. It was a feature made by another site.

21 Q. What site was that?

22 A. I believe it originated from a site called
23 Augmented Skills.

24 Q. Okay. Did Game Anarchy ever offer
25 lifetaker?

1 A. Just make it run better, just faster.

2 Q. Okay. And what code did you optimize?

3 A. Like some math functions and things like
4 that.

5 Q. What is the purpose of that code?

6 A. The purpose was just to do -- like the
7 ones that I specifically modified were just math
8 functions.

9 Q. Why would you use these math functions?

10 A. To calculate distances, angles, things
11 like that.

12 Q. So do they work in connection with some of
13 the hacks?

14 A. Yes.

15 Q. Which hacks would those be?

16 A. Well, I was mainly just talking about the
17 Combat Arms software.

18 Q. Okay. And were there specific features
19 that these updates relate to?

20 A. No. I just --

21 Q. So just a general update?

22 A. Just a general update, no -- nothing
23 really that added or removed. I just kind of
24 modified it.

25 MR. MULLINS: Okay. Plaintiff's

1 Exhibit K.

2 (Exhibit K was marked for identification.)

3 Q. (By Mr. Mullins) Do you recognize this as
4 another post from your forums?

5 A. Uh-huh.

6 Q. Did you read this post?

7 A. No.

8 Q. Do you see what the date of this post is?

9 A. Yes.

10 Q. What is the date?

11 A. October 22nd, 2012.

12 Q. And is this user liamvant saying he was
13 banned using VIP hack?

14 A. That's what he's saying, I guess. I don't
15 know.

16 Q. What would VIP hack mean to you?

17 A. Well, that's another term for the
18 software, VIP hack or just hack in general. They
19 all -- those are terms that the kids use.

20 Q. Does VIP hack refer to Game Anarchy?

21 A. The software.

22 Q. Game Anarchy software specifically?

23 A. Yes.

24 Q. Okay. Do you see this user UJaterie,
25 U-J-A-T-E-R-I-E?

1 A. Yes.

2 Q. Is this what you would refer to as the
3 terms of use?

4 A. No.

5 Q. What would you refer to this as?

6 A. Just the rules page.

7 Q. Do you believe this is something that a
8 user has to agree to?

9 A. Do they have to agree to it? I don't
10 think they -- there's nothing that says check here to
11 continue if you agree with it or not.

12 Q. Okay.

13 A. I mean, it's not -- it's not forced.

14 Q. Do you think it's enforceable?

15 A. No.

16 Q. Okay. But people, for example, are banned
17 if they violate these?

18 A. It's basic rules, like I said.

19 Q. So is that a yes?

20 A. If they break a rule from here, they may
21 be banned.

22 Q. Okay. Would someone get like a refund if
23 they were banned?

24 A. It depends on the situation, depends on
25 why they were banned.

1 Q. Okay. And then if you are a member of the
2 forums, you can use the other software available
3 through the loader?

4 A. Yes.

5 Q. So, if you do not have access to the
6 forums, you cannot use --

7 A. The additional software.

8 Q. You could just use the loader?

9 A. Right.

10 Q. Which doesn't itself do anything?

11 A. It has a few cleaning features like
12 CCleaner.

13 Q. Okay. So there are some things you can
14 use the loader for without being a member of?

15 A. Yes.

16 MR. MULLINS: Okay. This is going to
17 be M.

18 (Exhibit M was marked for identification.)

19 Q. (By Mr. Mullins) Do you recognize this?

20 A. Yes.

21 Q. What is it?

22 A. Website terms and conditions.

23 Q. For the Game Anarchy website?

24 A. Yes, yes.

25 Q. And, again, does a user have to agree to

1 Q. Well, first, do you think it's
2 enforceable?

3 A. I have no idea.

4 Q. I'm sorry?

5 A. I don't know, because -- I don't know
6 basically the laws that cover contract law.

7 Q. Why would you include this language?

8 A. It was just there from wherever we
9 originally copied it from.

10 Q. Why do you include a terms of use at all?

11 A. Personally, I don't know.

12 Q. Did you --

13 A. Because every site has one.

14 Q. So you --

15 A. I didn't look into the legal reasons why.

16 Q. But you did include these terms of use
17 because you wanted to impose rules?

18 A. To impose rules? I guess that's the
19 purpose of them.

20 Q. Okay.

21 A. I don't know my original -- or why. Just,
22 like I said, any website, every website has one,
23 so...

24 Q. I'm going to kind of go over some of these
25 specific rules.

1 Q. Do you know who AhnLab is?

2 A. They are, I believe, the makers of
3 HackShield.

4 Q. So same question: Why would you prohibit
5 someone employed with Nexon from accessing the
6 software or website?

7 A. I don't remember why it was added or the
8 purpose.

9 Q. Would you have a problem with someone from
10 Nexon accessing or using the website?

11 A. I guess not. I mean, I gave you an
12 account, I think.

13 Q. Correct, yeah.

14 Okay. So let's talk a bit about the
15 Game Anarchy software itself. We had discussed the
16 loader. So just to clarify, the loader is what you
17 downloaded from the website, correct?

18 A. Uh-huh.

19 Q. And that's just an exe file? Or what is
20 involved in the download?

21 A. Just one file.

22 Q. One file. And what?

23 A. The exe.

24 Q. Okay. And what steps would someone take
25 next to use that software?

1 them access to the software if they have access to
2 the forums.

3 Q. Just the software associated with that
4 game?

5 A. Right.

6 Q. Okay. And you said that has changed
7 since?

8 A. Right.

9 Q. Has it changed multiple times?

10 A. I don't believe so, just two different
11 methods, models.

12 Q. So the first one was method 1 and now
13 there is method 2?

14 A. Right.

15 Q. When did that change occur?

16 A. I'm assuming about a year and a half ago.

17 Q. Okay. And what is the current method?

18 A. That they buy what we call credits, and
19 then they can use -- they can buy access whenever
20 they want it day by day.

21 Q. Okay. So -- I'm a little confused.

22 A. Before the old method, time would be
23 running continuously.

24 Q. You would purchase for a month?

25 A. The month. Whether they use it or not,

1 Okay. So once you have access to a game,
2 then what happens? What does the loader look like?

3 A. It just changes the button -- the buttons
4 text from activate, which means use the credits --

5 Q. Okay.

6 A. -- to stream to where they can use the
7 software.

8 Q. And do you have to choose a certain
9 feature before you hit stream?

10 A. No.

11 Q. You just hit stream?

12 A. Uh-huh.

13 Q. And when you hit stream, what does that
14 do?

15 A. It just downloads the software from the
16 forums or from the website.

17 Q. Downloads what software?

18 A. For whatever game they picked.

19 Q. Okay. So that software is hosted with the
20 forums?

21 A. I believe those are uploaded to the dot
22 co, too. Dot co is just used as a file storage
23 place.

24 Q. Okay. So when someone hits stream, the
25 loader streams?

1 A. Downloads.

2 Q. Downloads the software from the dot co
3 server?

4 A. Right.

5 Q. That's correct?

6 A. Yes.

7 Q. Okay. Are all of the cheats for that game
8 downloaded then?

9 A. It's all one single thing.

10 Q. So there's one file?

11 A. One file, yes.

12 Q. So when a user hits stream after choosing
13 Combat Arms, for example, the loader downloads all
14 the features available for Combat Arms, correct?

15 A. Yes.

16 Q. Okay. Do you keep track of how many users
17 there are at a given time?

18 A. That goes back to the forums software,
19 yes. It does say which ones are active per day.

20 Q. Okay. And how many users are there, say,
21 on a given day of Combat Arms features?

22 A. I would say a hundred.

23 Q. Okay. How many members of the forums are
24 there?

25 A. I believe it's close to 150,000.

1 Q. As soon as you can.

2 A. It's just a screen shot.

3 Q. As soon as you can send that to me, that
4 would be wonderful.

5 And is that broken down by each game?

6 A. Uh-huh.

7 Q. And is that over time or is it a total
8 number?

9 A. Full-time over the years.

10 Q. Okay. Did the way that the forums keep
11 track of that change when you changed from the
12 subscription model to the VIP model?

13 A. No.

14 Q. Okay. So for the whole time the website's
15 been operating --

16 A. It's always subscription based.

17 Q. Okay. Do know what the number of Combat
18 Arms users has been?

19 A. Over the years, about 6,000.

20 Q. Okay. But there's 150,000 total
21 subscribers?

22 A. Just forum.

23 Q. Forum members?

24 A. Accounts.

25 Q. Accounts. And only 6,000 of those have

1 used Combat Arms?

2 A. Uh-huh.

3 Q. What do the rest use?

4 A. They don't have to use anything. If they
5 don't subscribe, you can still be a member without
6 actually using -- subscribing to any game.

7 Q. Are there members who don't subscribe to
8 any game?

9 A. Probably 99 percent of them don't.

10 Q. So most people just register but never --

11 A. Yes.

12 Q. -- use the cheats?

13 A. Whatever percent of a hundred thousand
14 divided by 6,000, you get a percentage out of that.

15 MR. MULLINS: Okay. Exhibit -- I think
16 we're at N, Plaintiff's Exhibit N.

17 (Exhibit N was marked for identification.)

18 Q. (By Mr. Mullins) Do you recognize this
19 document?

20 A. No. I can read what it is. I wasn't
21 given it.

22 Q. You never reviewed this document?

23 A. (Shakes head.)

24 Q. Did you speak with your lawyer in
25 preparing --

1 A. This document?

2 Q. -- responses to your discovery?

3 A. No, not that I know of. They might have
4 asked me questions, but I didn't know it was for an
5 actual -- whatever this is.

6 Q. Okay. And turn to page 6, numbers 14 and
7 15. These were in response to questions of how many
8 users access Combat Arms. Let's see, it says less
9 than 7,000 users.

10 A. 6,000 is less.

11 Q. Yeah. And where do you get that number
12 from?

13 A. How many accounts have subscribed to the
14 Combat Arms forum.

15 Q. Okay. As far as each of these subscribers
16 must have downloaded the launcher to use the cheats,
17 correct?

18 A. Yeah.

19 Q. So it wouldn't be any use to that without
20 the launcher?

21 A. Yeah.

22 Q. Okay.

23 A. It would be a waste of money, I guess,
24 unless -- unless they just want to get the forums. I
25 don't know what their motivations were getting

1 access.

2 Q. But you don't need to activate the Combat
3 Arms account to read the forums?

4 A. Not the public.

5 Q. Not the public.

6 How many people read the public versus the
7 private? Do you have any like percentage?

8 A. I would guess all the members since they
9 have access to the public.

10 Q. Read public?

11 A. Whatever, however many members we have.

12 Q. Okay. And so you have a record of that
13 number as well?

14 A. It's whatever the forum says how many
15 accounts they are.

16 Q. So if you could provide us with that.

17 A. I believe currently it's up to 150,000.

18 Q. Okay. So now we're going to go through
19 more technical aspects of the software; okay?

20 We've kind of gone over the loader
21 already. So we spoke about how you then stream the
22 cheats into the loader for each game, correct?

23 A. Uh-huh.

24 Q. What's the next step? After the cheats
25 are put into the loader, what would you do?

1 A. Yes.

2 Q. What did that cheat do?

3 A. Just automated them typing into the chat.

4 Q. Okay. Why is that cheat broken?

5 A. I'm not sure. I haven't looked. That's
6 why it's broken, because I haven't tried to see why
7 it's not working.

8 Q. Do you usually try to fix broken cheats?

9 A. If I think it's important, yes.

10 Q. How do you determine if it's important?

11 A. Whether or not I want to waste the time to
12 look.

13 Q. Okay. Does the launcher run alongside the
14 Combat Arms game?

15 A. No.

16 Q. So when the launcher --

17 A. It closes as soon as the game starts and
18 it's copying the code it needs onto the game.

19 Q. Okay. So is this the correct order: You
20 start the launcher? Type in your forum information?
21 Activate whatever game you want to activate using
22 credits? It's stream? The loader streams the
23 cheats? Is that correct so far?

24 A. Yes.

25 Q. What do you do now? I don't know what the

1 Q. Okay.

2 A. I don't know what they were scanning for
3 specifically.

4 Q. Okay.

5 A. I just know if you type the word or
6 your -- somebody with a Nexon account had the word
7 aimbot in it, which that would force that word to
8 show up in the computer or the game's memory.

9 Q. Have you made any design decisions in the
10 Game Anarchy software with the intention of avoiding
11 HackShield's detection?

12 A. I wouldn't say I have. I mean, I provided
13 the source codes. Have you received that?

14 Q. The source code, yes. That's not what I
15 mean. Did you design the source code in a way?

16 A. No.

17 Q. No.

18 A. There's not one line of code in it that
19 has anything to do with HackShield.

20 MR. MULLINS: Plaintiff's Exhibit O, I
21 believe we're at.

22 (Exhibit O was marked for identification.)

23 Q. (By Mr. Mullins) Do you recognize this at
24 all?

25 A. Well, it looks like a post in the forums.

1 person who made it.

2 Q. Do you see where it says this was ripped
3 from undefined@gameanarchy.net?

4 A. And -- I mean, I can read it, yes.

5 Q. And is Undefined something --

6 A. It's just another random Internet member
7 who looked like he's been helpful on our forums.

8 Q. Is Undefined one of -- is he a moderator
9 of the forums?

10 A. Yes.

11 Q. Okay.

12 A. Did he get this from them? I don't know,
13 ripped from. If you could find the post where I say
14 that, then I'll...

15 MR. MULLINS: This will be Plaintiff's
16 Exhibit P.

17 (Exhibit P was marked for identification.)

18 Q. (By Mr. Mullins) Do you recognize this
19 website?

20 A. No, I don't.

21 Q. Have you ever visited this website?

22 A. No, I haven't.

23 Q. If you could go to the last page. Do you
24 see it says HackShield undetected?

25 A. Yes.

1 Q. Is the website address listed as the
2 original source your website?

3 A. I don't know.

4 Q. Is the domain name?

5 A. Yes.

6 MR. MULLINS: Okay. This is going to be
7 Plaintiff's Exhibit Q.

8 (Exhibit Q was marked for identification.)

9 Q. (By Mr. Mullins) Do you recognize this?

10 A. No.

11 Q. Do you know what Facebook is?

12 A. I know what Facebook is.

13 Q. Does Game Anarchy have a Facebook account?

14 A. No, I don't.

15 Q. So this account is not your account?

16 A. No, it's not.

17 Q. Is the website address -- it suggests your
18 website?

19 A. Yes.

20 Q. Do you know who runs the Game Anarchy
21 Facebook account?

22 A. No, I don't.

23 Q. Were you ever aware there was a Facebook
24 account before this?

25 A. No.

1 MR. MULLINS: Okay. This is going to be
2 Plaintiff's Exhibit R.

3 (Exhibit R was marked for identification.)

4 Q. (By Mr. Mullins) Do you recognize this?

5 A. It looks like a YouTube account.

6 Q. Again, do you see the name GM-x4kOr?

7 A. Uh-huh.

8 Q. Again, do you know who that is?

9 A. Only from previous today.

10 Q. You never heard that user name before?

11 A. No.

12 Q. Is there a user of the Game Anarchy forums
13 by that name?

14 A. Apparently. I seen it somewhere in one of
15 the ones you showed me earlier. Is it spelled the
16 same? Oh, there may be somebody called that on one
17 of the forums.

18 Q. Again, do you see it lists HackShield
19 undetected?

20 A. I don't know what that -- that can be
21 Nexon posting that.

22 Q. Okay. Do you know why someone would list
23 that as a feature?

24 A. You'll have to ask them.

25 Q. Okay. Have you ever had to update your

1 detect Game Anarchy, but I don't know.

2 Q. Why would it be your guess that a
3 HackShield's update's purpose was to detect Game
4 Anarchy?

5 A. Because that's what their job is to try to
6 detect.

7 Q. So you agree the purpose of HackShield is
8 to detect software like that available?

9 A. To monitor what's running, yes. That's
10 what they say on their website.

11 Q. Do you agree that the purpose of
12 HackShield is to prevent people from using cheats
13 like Game Anarchy's?

14 A. I don't know their purpose, whether it's
15 to block or detect.

16 Q. Okay.

17 A. On their website that I've read, they seem
18 to do both.

19 MR. MULLINS: I'll give you Plaintiff's
20 Exhibit W.

21 (Exhibit W was marked for identification.)

22 Q. (By Mr. Mullins) Do you recognize this as
23 a forum post?

24 A. Yes.

25 Q. On the second page, is this post by

1 Q. So is it correct that HackShield -- your
2 understanding -- is it your understanding that
3 HackShield uses the driver which it can do on 32 XP
4 because it doesn't block it but it can't use that
5 driver on Windows 7 because it doesn't have access?
6 Is that correct?

7 A. Right.

8 MR. MULLINS: Plaintiff's Exhibit X.
9 (Exhibit X was marked for identification.)

10 Q. (By Mr. Mullins) Do you recognize this?

11 A. Yes.

12 Q. What is the tool you're referring to in
13 this?

14 A. It's just -- it's kind of like the
15 CCleaner tool.

16 Q. What was the purpose of that again?

17 A. It cleans out temp files, closes browsers
18 and stuff.

19 Q. Why were you using that program to help
20 prevent Combat Arms from crashing?

21 A. Because at the time that was when you can
22 have anything, Word or something in memory without
23 any software injected --

24 Q. Okay.

25 A. -- into the game and it would still crash.

1 Q. It would crash because HackShield would
2 detect that --

3 A. I don't -- maybe a bug in HackShield. I
4 mean, it seems if that's their method, but it seemed
5 crazy to crash a program just -- but that might be
6 how HackShield --

7 Q. Okay. So the purpose of this was to
8 prevent crashing?

9 A. To help them clean out the memory and help
10 stop crashes. This is for -- this was provided free
11 for anybody whether they use our software or not.

12 Q. You say that this cleaning tool is not
13 needed if you're using the loader; is that correct?

14 A. It's the same code.

15 Q. What do you mean?

16 A. I took -- the code, the cleaner code, like
17 I said, it has features besides the software where I
18 just copied that into another project and then
19 released it standalone.

20 Q. Okay.

21 A. So anybody can use it. They don't need a
22 forum account to use this one.

23 Q. So the loader already includes this?

24 A. Right.

25 Q. It does it automatically?

1 charge back.

2 Q. Okay. So --

3 A. They cost --

4 Q. You end up not getting paid?

5 A. Well, I lose the original money plus \$25 a
6 pop.

7 Q. Okay. Is Brazil the only place?

8 A. The biggest.

9 Q. Okay. I'm just going to ask just about
10 the website itself.

11 So, to clarify, there are multiple Game
12 Anarchy websites?

13 A. I've registered multiple domains, but the
14 website is only on dot net.

15 Q. Which domains have you registered?

16 A. Dot com, dot net and dot co.

17 Q. Is it correct for all those that's
18 Gameanarchy.co, dot net?

19 A. Yes.

20 Q. And you are the owner of those domain
21 names?

22 A. Yes.

23 Q. Okay. How many moderators are there of
24 the forums on the website?

25 A. Right now? Or over the years?

1 Q. How many credits does that cost in the
2 current system?

3 A. \$25 the first -- or 2500 the first time.

4 Q. For?

5 A. It's a one-time fee.

6 Q. And that's for one day?

7 A. And then it's a hundred, I believe. I
8 would have to look.

9 Q. Do any other games have a one-time upfront
10 fee like that?

11 A. One other.

12 Q. What game is that?

13 A. I think it was AVA.

14 Q. For Combat Arms there's no upfront fee?

15 A. No.

16 Q. How much is it to use the Combat Arms
17 cheats?

18 A. A hundred credits or a dollar a day.

19 Q. Okay. Are there different types of
20 credits on the website?

21 A. Yes. You're talking about there's one
22 with the public and VIP credits.

23 Q. What's the difference between public
24 credits and VIP credits?

25 A. Basically we also offer a survey system

1 where they can do surveys that are on credits, and
2 that will give them the public credits. If they pay,
3 then they get VIP credits.

4 Q. What are these surveys?

5 A. They're just -- they're just provided by
6 another company that when somebody completes a survey
7 like what's your favorite drink or whatever -- it's a
8 marketing thing.

9 Q. Okay.

10 A. And if they complete it, then they pay me
11 for every one that's completed.

12 Q. What is the company?

13 A. CP -- is it CPA? CPAlead or something
14 like that.

15 Q. And they pay you for every survey that's
16 done?

17 A. Uh-huh.

18 Q. And do you have records of how much they
19 paid you?

20 A. I would believe so. They send 1099s.

21 Q. Okay. Do they pay you by a check?

22 A. They monthly into -- direct deposit.

23 Q. Okay. How much money do you usually make
24 from them in a month?

25 A. Maybe about 500.

1 A. That we can, yes.

2 Q. And how do you determine the number of
3 credits it costs to access the game?

4 A. See how popular we think a game would be.

5 Q. And so how many games cost a hundred
6 credits a day?

7 A. I would have to go back and look. I don't
8 know offhand. I mean, it's a couple.

9 Q. A couple? One or two? Two or three?

10 A. Maybe three, two or three.

11 Q. Okay. And how many games are there
12 offered on Game Anarchy total?

13 A. Let's see. Currently, I think there's
14 about five or six.

15 Q. Games offered total?

16 A. Uh-huh.

17 Q. What are those games, as far as you know?

18 A. Combat Arms, CrossFire, Project Blackout,
19 APB, Modern Warfare. I think there's COD 4 and 5.

20 Q. COD is?

21 A. Call of Duty, older versions of Modern
22 Warfare.

23 Q. Okay. And what service or services do you
24 use to collect payments from?

25 A. Currently just -- originally it was

1 PayPal.

2 Q. Okay.

3 A. And for a very short time AlertPay.

4 Q. Okay.

5 A. And now we use Paymentwall.

6 Q. Why did you switch between services?

7 A. We switched because they offer a whole
8 bunch of different services where PayPal only allowed
9 people that had PayPal accounts to pay.

10 Q. Okay.

11 A. Paymentwall allows people that have
12 PayPal, Google, phone. They can take money by phone,
13 credit cards.

14 Q. Okay.

15 A. They just have more processing ability.

16 Q. Okay. And when did you switch services?

17 A. I believe it was in 2010 sometime.

18 Q. Okay. And on your current Paymentwall
19 service, do you have one account that you use for all
20 of this?

21 A. Yeah. They are the ones that handle all
22 the other payment systems, if that's what you mean.

23 Q. I mean, so do you have an account in your
24 name with Paymentwall?

25 A. I would have to look. I might have

1 registered that one under the LLC.

2 Q. Okay.

3 A. Or put them -- you know.

4 Q. How do you collect the money?

5 A. They send the money direct deposit into my
6 personal account.

7 Q. Personal bank account?

8 A. (Nods head.)

9 Q. What bank is that account at?

10 A. Heritage Bank.

11 Q. For PayPal, the previous service, did you
12 have that account in your own name?

13 A. I believe so.

14 MR. MULLINS: This will be Plaintiff's
15 Exhibit LL.

16 (Exhibit LL was marked for identification.)

17 Q. (By Mr. Mullins) Do you know what this
18 is?

19 A. It looks like some kind of PayPal account.

20 Q. Is this your account?

21 A. It looks like it, yes.

22 Q. Did you ever receive any money from Game
23 Anarchy subscriptions to this account?

24 A. I may have used this account.

25 Q. Is this your bank account on the second

1 page?

2 A. Are you talking about the Eagle Bank?

3 Q. Yeah.

4 A. I think that's what it was called at the
5 time.

6 Q. Okay.

7 A. They've changed their name three times
8 now.

9 MR. MULLINS: Okay. This is going to be
10 Plaintiff's Exhibit MM.

11 (Exhibit MM was marked for identification.)

12 Q. (By Mr. Mullins) Do you recognize what
13 this is?

14 A. It appears to be a PayPal transaction log.

15 Q. Do you recognize that as your account
16 name?

17 A. It appears to be.

18 MR. MULLINS: This is going to be
19 Plaintiff's Exhibit NN.

20 (Exhibit NN was marked for identification.)

21 Q. (By Mr. Mullins) Do you recognize what
22 this is?

23 A. A PayPal account.

24 Q. Do you know who Melanie Newbold is?

25 A. My girlfriend.

1 Q. Do you recognize the e-mail addresses
2 associated with this account?

3 A. Yes.

4 Q. Was this account used for Game Anarchy?

5 A. I believe this one I currently use, yes.

6 Q. How long have you used this account for?

7 A. I don't know exactly.

8 Q. Why do you use your girlfriend's account
9 to collect money from Game Anarchy?

10 A. Just because I wanted a second PayPal
11 account, and they won't allow you to open two in your
12 own name.

13 Q. Okay. So are you the only person who uses
14 this account?

15 A. Uh-huh.

16 Q. Does the total amount received -- does
17 that appear accurate to you?

18 A. I suppose, yes.

19 Q. What is that amount?

20 A. You want me to read it or what it is?

21 Q. Yeah. Read it first, please.

22 A. \$260,468.

23 Q. And was all of that from Game Anarchy
24 payments?

25 A. I believe most of it would be.

1 A. I can look and see who has a subscription
2 for that day.

3 Q. Okay.

4 A. The forums keep track of that.

5 Q. Okay. Can you see if they've streamed the
6 cheats to their loader?

7 A. The forums don't show that.

8 Q. But could you get that information
9 elsewhere?

10 A. Not to my knowledge.

11 Q. Would the server that hosts the cheats --
12 would it not keep track of when it is sending
13 information?

14 A. Not specific information, I don't think.

15 Q. Okay. How much revenue would you say
16 you've received in total from Game Anarchy?

17 A. From that log, it looks like 260,000.

18 Q. Do you think that's the entirety of what
19 you've received?

20 A. Well, I guess not since we switched to
21 Paymentwall. So I would have to add that on.

22 Q. Okay. How much of the revenue do you
23 think is due to Combat Arms?

24 A. I would estimate maybe 60 percent.

25 Q. Okay. How do you base that estimate?

1 What do you base the estimate on?

2 A. Number of users.

3 Q. Okay. Were you receiving any money from
4 the loader on the previous website before Game
5 Anarchy?

6 A. I don't remember how it was set up
7 exactly.

8 Q. Were you being paid by the website?

9 A. Yes. I was being paid by the other
10 website.

11 Q. And at that time were there Combat Arms
12 cheats?

13 A. No. The game wasn't out.

14 MR. MULLINS: Okay. I'm going to just
15 have you verify a few things.

16 This will be Plaintiff's Exhibit QQ.

17 (Exhibit QQ was marked for identification.)

18 Q. (By Mr. Mullins) Do you recognize this?

19 A. It looks like a log of PayPal.

20 Q. Do you think it accurately reflects income
21 you received from Combat Arms?

22 A. Right.

23 Q. This was provided by your attorney.

24 A. Uh-huh.

25 Q. Did you provide him this information?

1 A. Yes.

2 MR. MULLINS: Okay. RR.

3 (Exhibit RR was marked for identification.)

4 Q. (By Mr. Mullins) Do you recognize this?

5 A. Yes.

6 Q. It's the same information but for 2010 and
7 2009?

8 A. I believe, yes.

9 Q. Did you provide this to your attorney?

10 A. Yes.

11 Q. And does it accurately reflect income you
12 received from Combat Arms cheats for Game Anarchy?

13 A. Accurately, I don't know. As best I
14 could.

15 MR. MULLINS: Okay. This is going to be

16 SS.

17 (Exhibit SS was marked for identification.)

18 Q. (By Mr. Mullins) Again, do you recognize
19 this?

20 A. Yes.

21 Q. Does it accurately reflect income you
22 received from Combat Arms from Game Anarchy for 2011?

23 A. Yes.

24 Q. But this is just limited to PayPal,
25 correct?

1 A. Yes. At that time, that's all I used. It
2 looks like I might have switched over -- well, maybe
3 not.

4 MR. MULLINS: This will be TT.

5 (Exhibit TT was marked for identification.)

6 Q. (By Mr. Mullins) Do you recognize this?

7 A. Not really.

8 Q. This was provided by your attorney as
9 representing the amounts received from Paymentwall.
10 Does that sound familiar to you at all?

11 A. It's possible.

12 Q. Do those amounts appear --

13 A. I would have to look it up. I don't
14 recall right offhand.

15 Q. Are you able to look up and see how much
16 you received from Paymentwall?

17 A. I believe I can.

18 Q. If you can do that. If you can provide us
19 that information, that would be good. Can you
20 provide that to us?

21 A. Right now?

22 Q. As soon as you're able to access it,
23 obviously.

24 A. This might be what I sent him, this
25 earnings sheet. I'll look.

1 Q. Okay. Have you earned any income from
2 Game Anarchy in 2012?

3 A. Yes.

4 Q. Do you have records reflecting income from
5 2012?

6 A. I'm sure it would be included in whatever
7 I can give with this.

8 Q. So would you be willing to provide us 2012
9 records as well?

10 A. Up till March.

11 Q. What happened in March?

12 A. The lawsuit started.

13 Q. But do you continue to earn income since
14 March?

15 A. Yes.

16 Q. Do you continue to offer Combat Arms
17 cheats?

18 A. Yes.

19 Q. How much income do you think you've
20 received in 2012 as an estimate?

21 A. Total, maybe 50,000.

22 Q. Okay. And where is the money that you've
23 received from Game Anarchy now?

24 A. Most of it's spent over -- just spent.

25 Q. Okay. On what?

1 A. Like I just leased a car.

2 Q. Okay.

3 A. House payments.

4 Q. Okay.

5 A. Bills, whatever.

6 Q. So do you own a home?

7 A. Mortgaged.

8 Q. Okay. In your name?

9 A. Uh-huh.

10 Q. Okay. When you were served with the
11 lawsuit, did you take any steps to preserve evidence
12 that might be relevant?

13 A. I didn't take any specific steps.

14 Q. When you retained an attorney, did he
15 advise you to preserve evidence?

16 A. I don't remember.

17 Q. What information did you give to your
18 attorney to respond to our requests, records, that
19 sort of thing?

20 A. I gave the source code, the tax records I
21 have, the e-mails, the PayPal records. That's all I
22 remember right now.

23 Q. Okay. Do you have a separate bank account
24 at all for the Game Anarchy LLC?

25 A. I recently created one.

1 Q. When did you do that?

2 A. About two months ago.

3 Q. Do you keep any money in that account?

4 A. The minimum, a thousand.

5 Q. Does any of the revenue from Game Anarchy
6 go into that account directly?

7 A. No.

8 Q. And do you use funds received from Game
9 Anarchy for your personal expenses?

10 A. I guess you could say that.

11 Q. Okay.

12 A. I pay myself.

13 Q. Okay. Does Game Anarchy LLC have any
14 employees?

15 A. No.

16 Q. Does it have any shareholders?

17 A. No.

18 Q. Are there any articles of incorporation?

19 A. No.

20 Q. Is it incorporated? An LLC?

21 A. I went to LegalZoom and created it, and
22 that's the extent of it.

23 Q. Okay.

24 A. At first they told me -- my lawyers told
25 me I didn't set it up correctly because it offers no

1 protection. Everything is in my personal name, so...

2 MR. MULLINS: I think that's actually
3 about it. So, thank you.

4 (Deposition concluded at 3:20 p.m.)

5 (It was stipulated and agreed by and
6 between counsel and the witness that the signature of
7 the witness be waived.)

I don't see why DC would ditch his own site in the first place just to code for someone else. That seems a little. Weird.

Well DC is coding hacks for another hacking website now. What do you think? has he forgotten about GA?

I am? before I ban you for complete slander, I'll give you a chance to show some proof and it better not be. I heard from someone crap. forgotten about GA? .hmmmm, all hacks are online. in the last week I've updated 4 different games, and added a new one.

If you see another "Drunken Cheetah" coding for another pay site, it's 100% fake.

No it's illegal, the dude is asking for hacks that changes your name in game so when they report you its someone else not your original name(your going to have to hack the servers, bro its illegal).

Using gameanarchy, hacks for any game, does not fall in terms with any game's terms and conditions, meaning, that these hacks are more definitely illegal to distribute, or to use in any way shape or form. On topic: I don't think it would be possible, but I've seen stuff like that with Cod 4 pc, where you can change your name periodically.

DC is in a lawsuit as Nexon believes he is lowering their profit as people didn't need to buy NX for NX weapons (Weapon Spawner) if I'm not mistaken. I did read through the information on it but that was a while ago.

I have seen many GM's pop into a room for no reason. I just play normally (with chams, all hit, basic things) then they leave. Why they pop in I have no id coming in rooms a lot just to check it out. I guess to see if users are flying, and anything noticeable.

If your EU then that why if your NA because you wasn't smart enough to 1. change the name of the hacks 2. your hacks too hard that everyone can tell you're hacking if you use the Lite hacks 3. You're just not smart to hide hacks

Hackshield will kick just for having certain words in memory...
example...make an account with the word "omnibot" in it...boom, kick with or without hacks.
It's lame they resort to such tactics, but w/e... that's how they detect most things is simple pattern scans.

Try the following before you ask if the hack is detected:

1. close all browsers and programs
2. run CCleaner (download from here: http://www.filehippo.com/download_ccleaner/)
3. reboot <--This is needed to make sure all "bad" words are wiped from your RAM
- *do not visit any hack sites after reboot
4. run GA loader and play

If you make a new account and find it's banned...try starting the game directly instead of using nexon's website.

C:\Nexon\CA\CA_Direct.exe

If you click "Megakill" key and you hear that you hitting someone but your kills does not increase, just activate aimbot + super bullets and it will work fine, if you want to do it faster activate Rapid fire and change your game fire key to anything else than Left click or right click.

I totally did not understand what are you trying to say but all im saying is that you need to change your fire key in combat arms settings(DEFAULT: left click) <- that default key you must change it to another key(Example: X)

And Guys how can I get Fast Lifetaker? I use the megastail button But I Don't like That Low Speed
And why when I do Lifetaker like 120 kills I crash? some vip's can do 400 Lifetaker kills with no crash
I Thought this is the best vip hacks?

were you expecting not to get banned using hacks? if you use superbullets megakill or something like that you WILL get banned, if you use unlimited ammo because its a s2s hack (send to server)
But yeye, Visuals isnt as big chance that u get banned from, ALWAYS use hacks on your own risk.
